## 📁 PROFESSIONAL EXPERIENCE

**Backend Developer, Monet Analytics**

2024/10 – Present | Gurugram

## 📁 PROJECTS

**Ecommerce Web Application, (NodeJS, Express, MongoDB, HTML, CSS, Bootstrap, JavaScript)** 🔗

- Created a fully functional ecommerce website that allows to shop from the wide range of products with features such as add-to-cart, admin dashboard, star rating, reviews, buyer seller dashboard, validations, payment, add-to-cart etc.
- Created a REST API with NodeJS and MongoDB, and integrated secure user authentication using passport.js.

**Cooking Blog, (NodeJS, Express, MongoDB, Bootstrap, JavaScript)** 🔗

- Creating a fully functioning blog web application that allows to add cooking blogs for every one.
- Full Responsive Web Application and Deploy by Render.
- Created a REST API with NodeJS and MongoDB.

**Password Suggestion, (React, Tailwind CSS)** 🔗

- Created a web application by React using some hooks like {Use State, Use Effect}. This web application gives password suggestion. The styling of this application is very basic which is styled by the Tailwind CSS.

**Medium Clone, (NodeJS, Express, MongoDB, HTML, CSS, Bootstrap, JavaScript)** 🔗

- Created a fully functional blog website that allows to shop from the wide range of products with features such as adding blog, star rating, reviews, validations etc.
- Created a REST API with NodeJS and MongoDB, and integrated secure user authentication using passport.js.

## 🧠 SKILLS

Data Structure and Algorithm

NodeJS

MongoDB

Express

JavaScript

React

HTML

CSS

Bootstrap

jQuery

Tailwind CSS

## 🎓 EDUCATION

**Master's of Computer Application,**

Dr. A.P.J. Abdul Kalam Technical University

2023/08 – 2025/05 | UP

**Bachelor of Computer Applications,**

Sirifort Institute of Managment Studies

2018 – 2021 | DELHI

**12th, Nutan Vidya Mandir Senior Secondary School**

2017 – 2018 | DELHI

## 📄 CERTIFICATES AND COURSES

• Data-Structure and Algorithm with Java (Coding Blocks)

• Mern Stack Web Development (Coding Blocks)
